## In Class Activity 05

Below are 2 short conversations between a child and a caregiver. List all disfluencies and state whether those are typical or stutter-like disfluencies.

1. Child: I w-w-w-w-w-w-w-want candy!  
Caregiver: You want candy?
  2. Child: Yes, I wwwwwwwwwwwwwwwwwant candy!  
Caregiver: Ok, what candy do you want? Cookies?
  3. Child: No.  
Caregiver: What do you want then?
  4. Child: C-c-c-c-c-an I ha-ha-ha-ha-have Oreos?
    1. Sound repetition non-typical
    2. Sound prolongation non-typical
    3. Nothing
    4. Sound repetition non-typical
- 
1. Child: Can I read this this this book?  
Caregiver: Sure. Do you really want this or maybe the other book?
  2. Child: I like I like I like to read this one, the r-----ed one.  
Caregiver: The one about the rabbit?
  3. Child: Y-----es, the, um um, about the rabbit.  
Caregiver: Ok! Do you want to read it now?
  4. Child: If you have t-t-t-t-t-time, th-th-th-then we caaaaaaan read it now.
    1. Nothing
    2. Phrase repetition (typical), blocking (non-typical)
    3. Blocking(non-typical), interjection (typical)
    4. Sound repetition, sound prolongation non-typical
