

### **Activity Title:** Sentence Revision

**Objectives/Goals:** The goal of this exercise is to help students with sentence level peer revision.

#### **Description/Instructions:**

Select one sentence from each paragraph from a group member's draft.

Revise the sentence six ways:

- make the sentence as short as possible
- make the sentence as long as possible
- reverse the order of content within the sentence
- change three words within the sentence
- divide the sentence into two sentences
- combine the sentence with either the sentence that comes before it or after it.

Once you (the author) get back your draft, select your favorite and write about what effects the revision had on the sentence.
